GIFS & BITMAPS are not accepted nor are images taken off the internet (these are too small for publication). How to photograph your artwork: If your work is two-dimensional, please make sure you take your photo facing the surface of the work directly. If possible, make use of a camera tripod or a makeshift camera stand (such as a stack of books), rather than holding the camera by hand, to prevent blurriness. Note that most new smartphones contain powerful cameras, and can be used for artwork documentation purposes. If possible, avoid photographing you work under glass to prevent reflections and glare. Please crop the photograph so that nothing other than the artwork is visible, using a digital image editing program such as Microsoft Paint or Adobe PhotoShop. If your work is small, we recommend using a scanner for best results, to avoid distortion. Arts Council of Surrey will accept multiple images of the same work in cases where this would assist jurors to see the work in more detail, e.g.
