	<p>"100% Bag Country"</p> <p>Joanne Dennis</p> <p>100% Bag Country is a concept fibre artwork that depicts a country setting with a bell tower that calls the local farmers together to join in celebration of the sun that feeds their orchards. I created this piece out of the recycled grocery bags that I tend to collect. I buy reusable grocery bags to avoid feeling guilty about yet again asking for plastic bags on my shopping trips, because I forgot my bags at home or in the car. Now I have a large collection of reusable grocery bags sitting in my closet. What better way to represent the Just Bags exhibit with an artwork made 99.9% out of bags (I rounded up for the title). This artwork is made up of bags for the image, the frame, the backing and the hanger. The thread that holds it together is the other 0.1%. This artwork is an exploration into fibre art using recycled materials, and I learned about layered fabric and stacking techniques as part of the process. This was such fun to create!</p>	<p>Fibre Art</p>	<p>NFS</p>
	<p>"Showing Off"</p> <p>Juliana Laskowska</p> <p>A woman's purse always says much about her. Big or small, flashy or modest, in a way, it communicates to strangers what kind of woman she is. For some women, their purse is particularly important, for others not so much. I titled this piece "Showing Off", as a cheeky commentary on how one's purse is a silent, but often not so subtle way, of making a statement.</p>	<p>Acrylic on Canvas</p>	<p>\$160</p>

I always saved bags for other uses but noticed I had an over abundance. These bags were folded into used plastic deer net fencing from our garden, the material is recycled from a dress and embellished with embroidery.</p>	<p>Mixed Media</p>	<p>\$175</p>
